Whisper Trivia

1. In a website browser address bar, what does "www" stand for?
2. Originally, Amazon only sold what kind of product?
3. Who was the first woman to win a Nobel Prize?
4. What was the coffee shop named in the hit TV show Friends?
5. What is the national sport of Japan?
6. What are the only birds that can fly backward?
7. Which vegetable was the first to be grown in space?
8. How many bones are in the human body?
9. What singer holds the most Grammy nominations?
10. Who is the all-time leading NBA scorer?
11. The age of a lion can be determined by its?

- Answers:
1. World Wide Web
 2. Books
 3. Marie Curie
 4. Central Perk (1903 Child)
 5. Sumo
 6. Hummingbirds
 7. Potato
 8. 206
 9. Beyoncé (88 nominations, including the 9 with Destiny's Child)
 10. Central Perk (1903 Child)
 11. Nose

Notes from Earle (Aberdeen Resident & U.H.S Councillor)

WHEN IS A RUMOUR, NOT A RUMOUR?

Ahh! The perils of public office. Every word uttered or written can be subject to the, sometimes relentless, scrutiny of others. In the last edition of the "Whisper" I referred to the 'rumour' of a pool fund for Aberdeen. Now, according to my dictionary, a rumour is: "a currently circulating story or report of unverified or doubtful truth." Clearly, there was, (and still is!) a circulating story that consisted of unverified claims which, unfortunately, then morphed into further unverified claims, (conspiracy theories), about what happened to the funds that were allegedly accumulated.

One aspect of all this is that the timeframe in which all of this occurred is very unclear. Enquiries to Upper Hunter Shire Council, which only came into existence in 2004, have resulted in a confident declaration that there is no record of any such funds in their finance system. It seemed sensible to try to find out the facts, if they existed, so it was included in the agenda of the Aberdeen Community Advisory Committee, (CAC), which met on Monday 10th February. At that meeting there was broad consensus that at some time in the past there had been a concerted push to raise funds for a town pool. However, the 'vision' for a pool ran far ahead of the fund-raising capabilities of an enthusiastic group of advocates and eventually, it seems, the project simply ran out of steam. That, however, still leaves a question hanging over what happened to those funds. A week later, the CAC had a follow-up meeting and at that meeting a manilla folder, with the title 'Aberdeen Pool Fund', was produced. It had been amongst some stored material from a local history group. It appeared to have a substantial amount of information in it. At the time I was told that I couldn't look at the contents until permission was granted. I was okay with that, and I was happy to allow whatever process was necessary, confident that the 'history' would be illuminated. Unfortunately, on Wednesday 26th February I was told that I did not have permission to see those contents. I remain hopeful that the material in the folder will be made public at some time in the future. If not, then aspects of the 'Aberdeen Pool Fund' will remain a 'rumour' and the speculation concerning those funds will undoubtedly continue.

THE 'HOUNDS OF ABERDEEN'

Life in Aberdeen is nothing if it is not eventful! On 12th February, I encountered three relatively young dogs near the waste facility that appeared to have been abandoned. None had a collar on. I saw them again on the 13th and the 15th. They were reported to Council and, fortunately, there were a number of locals involved in feeding them and providing water and shelter. Those folk were concerned to try and ensure that these animals did not become 'feral' and disappear into the surrounding country and become a threat to the farming community.

WELL, DONE!

Official efforts to capture the dogs became a drawn-out affair with no success until 24th February when one animal was tranquilized by the RSPCA and the next day another was successfully trapped by council staff. I understand the final dog was captured by someone in the community around February 27th. The important point about this episode is that in the current environment, keeping a companion animal may become really difficult. There is NO SHAME in ringing Council and asking for assistance from the animal shelter staff. If you need assistance getting an unwanted animal to the shelter and none is forthcoming, make a call to me. (My details are on the Council website.) PLEASE DO NOT TAKE MATTERS INTO YOUR OWN HANDS AND ABANDON ANIMALS. The effort required to rectify that is substantial, not to mention the damage being done by all sorts of feral animals in the environment. A simple phone call is much easier.

OTHER COUNCIL MATTERS

At its February ordinary meeting, Council resolved to enter into a lease arrangement for the Hunter Warbirds tourist attraction at Scone Memorial Airport. Over the next five years that is expected to improve Council finances by an estimated \$2,000,000. The financial situation facing council remains precarious and much effort is being expended to reverse that grim outlook. At both the state and federal levels there have been recent parliamentary committee reports that have reported on the fragile financial situation faced by local governments Australia wide. Given the fate of countless reports in the past, there is a reasonable degree of concern that the pressing needs of local government will fall on 'deaf ears' in the higher levels of government.

Celebrating Heritage

The Aberdeen Meatworks Reunion On March 30, 2025, former employees and their families will come together to celebrate the legacy of the Aberdeen Meatworks, which closed its doors after an impressive 109 years of operation.

This reunion promises to be an event filled with nostalgia, stories, and heartfelt memories as those who once knew the hum of the abattoir's operations reconnect at the Aberdeen Sport and Recreation Club from 11:45 AM to 6 PM. Established in 1890 after a group in London sought to create a facility for processing livestock. The Aberdeen Meatworks quickly became the heart of the community in the Upper Hunter Shire. At its peak, the meatworks employed around 480 local individuals, many of whom shared the pride of working in a facility that was the largest employer in the region.

Over the years, the meatworks became a place where generational ties thrived, with many families seeing their sons and daughters following in their footsteps to join the workforce, fostering strong connections and a unique sense of community. Attendees are encouraged to bring along photographs and memorabilia that reflect their time at the meatworks, opening up opportunities to share stories that have become cherished pieces of local history. For many, these artifacts serve as windows into a time when the local economy thrived, and the sound of machinery blended with laughter and camaraderie. The event will also feature a delicious menu inspired by the diverse community in Aberdeen, with Chinese meals available to cater to various tastes. To assist with staffing at

pictured from left to right: L.W. Davies, E. Jefferson, Shirley Roper, Pauline LaHay, Hunter Taylor, Aub Harrison, Fay Roper, Frank Neely, Des Lloyd, Jean Roper, Ron Horder, Hetti Hine, Bernice Lloyd, Ruth Taylor, A.F Taylor

the club, please call 0402317463.

The Aberdeen Meatworks may no longer be in operation, but its spirit lives on through the stories and bonds forged by those who worked there. This reunion is not just a gathering; it's a celebration of a shared past that plays a critical role in the identity of Aberdeen and its residents.

Mark March 30, 2025, on your calendars and prepare to step back in time, as we honor the legacy of the Aberdeen Meatworks and reflect on the lives intertwined with its history. As the day unfolds, there will be ample opportunity for laughter, storytelling, and the rekindling of friendships that time may have distanced but never severed.

Postie Bike Charity Challenge

On April 9th, over 70 women, of all ages, all riding red postie bikes will set off on a fund raising mission called The Never Late Fe-Mail Postie Bike Ride, raising money for children's medical flight charity Wings4kids. Wings4kids supports families living in regional areas of NSW who are facing significant and difficult challenges to access treatment for a child who requires air transport to a major city. Wings4kids is a registered charity and aims to lessen the significant burden of long distance travel for these children and families by providing free air and ground transport.

Rouchel resident, Marina Lee-Warner took part last year " It was more fun than I could have imagined, the comradery amongst the riders was fantastic and a high level of support was on hand for those inevitable breakdowns, flat tyres, tumbles and spills. We had some really heavy rain out west last year resulting in flooded roads, which just proved that the postie bike is unstoppable! It is a really fun and challenging way to raise money for a great charity, supporting vulnerable rural families, some of whom we met along the way and heard their personal stories of how they had been helped by Wings4kids."

The ride takes off on April 9th from Bathurst, with the Bathurst Mayor dropping the chequered flag as the bikes do a lap of honour around Mount Panorama. The riders will mainly be on dirt back roads going through Young, Temora, West Wyalong and finishing up in Parkes, covering 800 kms over the 4 days.

'They are keeping us off the main roads as much as possible, the humble postie only goes about 60 kph flat out, we don't want to cause a bottle neck wherever we go. Stopping in at very small rural communities along the way for lunch, catered for by the local hall or tennis club were some of my favourite moments, reminding me of our own small communities here in the Upper Hunter and how willing they are to support a cause and provide hospitality. It is what keeps tiny communities thriving.'

The last 2 years rides raised more than \$500,000, this being the third year the ride is taking place. 'This year Muswellbrook Rotary Club has

stepped in and provided very generous sponsorship & I would also like to acknowledge the wonderful support of the Scone CWA and for getting behind the fund raising drive.' Marina added 'and of course thank you to Hunter Valley Printing and The Aberdeen Whisper and readers. 100% of all money raised will go to Wings4kids, the riders are funding their individual participation, each with a fund raising goal. The charity organisers, doctors, mechanics and support crew who travel with us are all volunteering their time for this great cause.'

If you would like to support this novel fund raiser for a great cause, donations can be made at Aberdeen Post Office, Aberdeen Surgery and Aberdeen Pharmacy by scanning the QR code on display.

Plastics The Second Instalment

by Doctor Dirt

This month's instalment continues to explore the scourge of plastic pollution. I am going to focus on organised cleanups in this episode. It will take several articles to cover the massive problem to the local, national and the earth. Plastic pollution is prevalent throughout our catchments, rivers and oceans. Damaging and down grading at an accelerated rate to our environment. A significant issue effecting fauna and humans.

Natural Geographic report has estimated in Australia 73% of beach litter is plastic. The top six plastic pollution in Australia by weight and/ or amounts are as follows:

- Plastic Bottles, 5 billion single use drink bottles are used every year. A weight of 325,000 tonnes.
- Soft Plastic 70 billion pieces every year, such as food wrappers.
- Disposable packaging and containers, such as takeaways. This is very increasing source of pollution.
- Disposable Food ware items such as utensils, 7 million every day. Plastic straws, spoons etc.
- Cigarettes, this is recorded in beach clean ups as the most frequent item. These have non-biodegradable plastic component that takes over 12 years to breakdown often more than 30 years.
- Microplastics such as micro beads, microfibers and fragments.

These six categories (only) are estimated to weigh 700 tonnes and contribute between 75 to 130 thousand tonnes of plastic pollution in Australia per year. These figures are extremely alarming and is accelerating, throughout Australia and surrounding seas and oceans.

Please note the above focus is plastic on beaches. As mentioned in my previous article it is estimated there are 705 thousand tonnes of discarded nets/fishing lines in the world's waterways and oceans. These are a very major source of deaths to marine animals, reptiles, fish and birds. Direct dumping of plastics into the oceans from human activities result in significant pollution. However, the major source of sea, ocean and coastline plastic pollution originates from dumping rubbish on land and conveyed by water runoff into our waterways. The plastic pollution is significant in our freshwater systems. They are prevalent floating and staying in suspension in the water, they are also deposited on stream beds and banks. A significant pollution to aquatic animals, ecosystems (native flora and fauna).

There are a number of Major Organisations involved in coordinating cleanups. There is a heavy reliance on volunteers and community efforts. We have all heard of Clean Up Australia but there are many other large focus groups throughout Australia such as Sea Shepard, Seaside Scavenge and Tangaroa Blue.

Sea Shepard for example have assisted the very organised Dhimurra Aboriginal Corporation in clean up Northwest Arnhem Land. This area includes breeding areas of sea turtles.

Australians and the environment can thank Ian Kienan who 35 years ago created the "Cleanup Australia Day" this is held the first Sunday in March every year. This is a date to consider for the future. Schools Cleanup Australia Day was Friday the 28th of February this year. Not only individuals, local governments, communities but also be businesses are involved.

It is too late for this year to register for "Cleanup Australia Day", but why not start the ball rolling for 2026. it may take time to focus on where and how to cleanup an area, generate interest and create a team. When you register online with "Cleanup Australia you and your team can be provided with safety and clean up equipment to undertake your project. Other Cleanup organisations (some are mentioned above) have similar sites to register and support programs.

There are plenty of areas you can focus in our areas, roadsides, parks, townships, rural areas, targeted environment vulnerable areas and riparian/waterways and flowlines. It does not have to be the beaches. What we do in our areas will cleanup our environment and reduce damage elsewhere.

Barnaby Joyce's Election Tea Leaves

This election is not easy, it is far from a certainty yet it is fundamental to how our nation and you are going to fare in the next three years and the subsequent consequences from them. Intermittent power, with its wind towers and solar panel fields; driving up power prices, destroying your cost of living, making you poorer. The live sheep trade being forced to shut, losing export dollars and putting downward pressure on the dollar; making imports dearer and making you poorer. Overseas companies being given taxpayer money for intermittent power precincts and then the bill being handed to you.

A country which is currently run by a front bench that has never run a business. Environmental laws to make the inner suburbs and the leafy ones of the capital cities feel virtuous whilst the farmer lives with an environmental police drone over their property. It is not just your local Member of Parliament that you have to understand has a role for better or worse in dealing with this, it is also your 12 Federal Senators from your state. You have a chance to have your say as you did in the Voice Referendum. Make sure you say it. Don't ever think your vote doesn't matter, it is the only thing that can get your nation back on track.

I generally hate using the lines they put out as the pitch, "get your nation

back on track", but I will make an exception this time because our nation is bogged in the burrs. It is trying to make so many others who are wealthy, who are doing quite well but don't even live here whilst forgetting about those doing not so well who actually call Australia home.

Can you name one dam that the Labor Party has announced and started to build because I can name a few they have stopped. Dungowan Dam, Hells Gate Dam, Urannah Dam, Ernu Swamp Dam and also I suppose the Bowen Pipeline. Can you name any major road off the coast they have announced to build because I can name one they have stopped, the third sealed road across Australia, the Outback Way connecting Townsville to Perth. Can you name part of any department that Labor has started to decentralise out of Canberra because I can name one they are trying to centralise back, the APVMA in Armidale. Can you name who the Labor Party Agriculture Minister is for Australia in one of the most important industries of Regional Australia? Surely you can! Well, it is Julie Collins, have you ever heard from her?

But I tell you what we have got from the Labor Party; their smashing of our landscape and seascape with their intermittent power precincts, so erroneously called "renewables". As if we are all so imbecilic that we fall for the sales pitch, as if it was nirvana delivered by a door to door salesman of vacuum cleaning products Now, Chris Bowen! There is a fella I bet you have heard of!

State Matters with Dave Layzell MP

HOSPITAL FUND

Hunter New England Local Health District has been allocated \$750,000 for upgrades to three hospitals in the Upper Hunter Electorate. The Regional Minor Works Program will enable Scott Memorial Hospital, Muswellbrook Hospital and Dungog Hospital to each receive \$250,000 for improvements. An Emergency Department expansion at Scott Memorial, Scone will convert a temporary overflow area into a permanent space and support for the continuation of clinical care. Muswellbrook Hospital is to receive a new palliative care room with an ensuite and carer support space.

SCHOLARSHIP APPLICATIONS

Year 10 and 11 History students currently have the opportunity to apply for the Premier's Anzac Memorial Scholarship. Up to 20 students from across the state will be selected to participate in the annual study tour during the Term 3 school holidays, departing Monday 29 September and returning on Friday 10 October.

Eligible students can apply online by submitting a personal essay, a letter of recommendation from their school and a parent consent form. Applications close Sunday 9 March with application information at: <https://www.veterans.nsw.gov.au/education/premiers-anzac-memorial-scholarship/>

NSW ELECTION 2027

The benefit of the NSW Parliament having fixed four-year terms will be demonstrated when the next State Election is held in 2027. At present, NSW is scheduled to go to the polls for a general election in late March 2027, which also coincides with Easter.

Pony Club News

What a fantastic start to a new fun filled year at Aberdeen Pony Club. Our first rally day saw lots of old faces and we warmly welcome our new pony club friends. The kids tried their hands at showjumping, troop drill, sporting, exciting games and a cool off in the river afterwards. Thank you to our instructors and to the parents for all helping throughout the day. Our next rally day will be in conjunction with Scone Pony Club at scone grounds. More information will be posted on Facebook and sent out via email closer to the date. If you are interested in joining Aberdeen Pony Club please reach out via our Facebook page or pop down to our April rally day to see what's pony club can offer.

The Latest on Vets Golf

RAINY GAME

Twenty Vets came to Denman for their monthly Stfd event on Feb 11. After a rather damp start with most players playing about 12 holes, the game had to be called off just after 11am due to heavy rain and storm conditions developing, and the radar not looking good. Thank you to Captain Mick McCormick for the shotgun start draw, and to all the generous Vets who provide rides in their cart's spare seats each week. Denman course is in top condition.

CONDOLENCE TO JOHN MITCHELL

28 VET golfers played in the stroke and putting event at Aberdeen Sport and Recreation Ground on Tuesday, Feb 25. They all express deep condolences to the Aberdeen executive and members and the family of John Mitchell on his passing last Friday. John did lots of building and repair work at the club over many, many years for golfers and the other users of the facilities, for example tennis players and children and their parents, and so on. He will be sadly missed.

Captain Mick McCormick won the event with nett 70 from Paul Constable second 71, Tony Pearson third 72, Graham Newton fourth 73 and Robert Lawman fifth 76 C/B. Balls went to Ron Shuttleworth and Albert Colbert on 76 and on 77 Graham Turvey, Sid Collison, Red Palmer and Brian Harshman. Mick won A Grade, Tony Pearson won B Grade and Robert Lawman won C Grade. The Bradman's Trophy, kindly donated by Gary Morley was won by Geoff Barton.

Nearest the Pins: 4th Tony Pearson 13th Albert Colbert 16th Dave Kerr 9th Brian Harshman 18th Glenn Googe.

FUTURE EVENTS:

- March 11, Stfd at Aberdeen during the WOG at MbK
- March 18, Stfd at Denman
- March 25, at Scone Stfd 2bbb & individual; (Please book-in with Lindsay Hodge);
- April 1 Stfd at MbK, MEDAL round, (please book-in with the proshop);
- April 8, Stfd at Denman; Green Fees go up to \$20. April 15, Scone STROKE 8.30am (Daylight saving ends on Sunday, 6th April)

New Members welcome

Supplied.

Athletics

Championship Season

The 2024/2025 season is nearing an end. Some of our athletes have been quite busy the last few months competing in carnivals as well as at our regular Friday nights.

At the All Schools Championships in Sydney 28 Sept – 2 Oct Ruby Brochtrup competed. Her results are: 100m run 11th overall 13.00; high jump 6th 1.50m; long jump 3rd 5.18m & triple jump 4th 10.79m. Ruby's long jump result earned her a place in the NSW Team (for long jump) at the Australian All Schools Championships in Brisbane in December where she gained a 3rd place with a jump of 5.36m. A great effort. Well done Ruby!

At the Hunter Zone Championships at Maitland 30 Nov & 1 Dec, 4 athletes from Aberdeen competed. Their results are: 10's Benjamin Roach - discus 2nd 18.51m; shot put 4th 5.63m; long jump 14th 2.39m. 14's Grace Partridge - 800m run 4th 4-07.23; 1500m run 4th 8-06.88; 1500m walk 1st 14-35.51; discus 5th 6.91m & triple jump 5th 6.24m. 14's Archie Sellers-Bentley - discus 1st 33.39m; shot put 3rd 7.28m & javelin 1st 27.26m. U20 Amelia Wadwell - long jump 1st 2.91m; discus 1st 14.24m; shot put 1st 5.97m & javelin 1st 13.75m. This was the first year that U20's could compete at Zone Championships.

NSW Country Champions, 17-19 January at Maitland. Archie Sellers-Bentley – shot put, discus & javelin – 1st in each event. Region 2 Championships 7-9 Feb, at Maitland. 10's Benjamin Roach – discus 12th 16.95m. 14's Grace Partridge – 1500m run 8th 9-03.09; 1500m walk 4th 14-19.99 & 800m run 9th 4-13.32. 14's Archie Sellers-Bentley – javelin 1st 29.59m & shot put 2nd 11.37m. U20 Amelia Wadwell – discus 1st 13.29m; javelin 1st 13.16m; shot put 1st 5.99m & long jump 1st 2.88m. Again, this was the first time U20's could compete at Region.

Our member, Ruby Brochtrup had to become a dual member with Mingara in order to compete at Region because of her commitments with other sports when our Zone Championships were held. 15's Ruby Brochtrup 100m heat 2nd 12.92, final 3rd 13.03; high jump 1st 1.60m; long jump 2nd 5.07m & triple jump 2nd 10.12. This month some of our athletes are off to State Championships in Sydney. Best of luck to you all.

Supplied.
